A work session of the Board of Commissioners of Public Utility District No. 1 of Clallam County was held at the Port Angeles Office, 2431 East Highway 101, on the above date commencing at 1:30 p.m.

Commissioners present: Will Purser, President; Hugh Haffner, Vice President; Hugh E. Simpson, Jr., Secretary

Staff present: Michael Kitz, Water & Wastewaters Systems Superintendent; Tom Martin, Water & Wastewaters Systems Assistant Superintendent; George Crabb, Senior Water & Wastewater Technician

Others Present: None

Staff took the Commissioners on a tour of the Bobcat Hollow and Old Olympic Highway wells that are currently under construction. Construction is currently at approximately the 60% level and expected to be complete by April 15, 2015.

Staff took the Commissioners on a tour of the Morse Creek Water Treatment Plant. The plant has been in operation for the past 8 years and has exceeded Staff’s expectation for water quality and reliability. Derek Thompson explained the process of water treatment from the raw water in the river, through the water treatment process, to the high-service pumping. The Commission noted that the facility was well kept and looked like it did on their first tour 8 years ago.

The work session adjourned at 4:15 p.m.
