It is understood that the Contractor assumes the risk of the condition of the property or properties to be worked upon or about. Contractor agrees to release, indemnify, defend, and hold harmless the District, its agents, and employees against any liability claim for damages for personal injury, including death, and property damage to the person or property of Contractor, its agents, employees, representatives, licensees, or invitees, resulting from any defective condition of said property while the Contractor is engaged in the performance of this contract.

Contractor also agrees to indemnify, defend, and hold harmless the District from any and all liens, claims, or damage of any kind or nature against or to any property resulting from or arising out of the performance by the Contractor under the terms of this contract.

In all claims against the District, its agents, and employees, or the Contractor, any subcontractor, anyone directly or indirectly employed by the Contractor, any subcontractor, or anyone for whose acts the Contractor or any subcontractor may be liable, the indemnification obligation under this paragraph shall not be affected by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Contractor or any subcontractor under any worker's compensation act, including Title 51 RCW, any disability benefit acts, or any other employee benefit acts. The Contractor and any subcontractor hereby waive, for themselves and their successors, any right to claim any such limitation as a defense, set off, or other reduction of the District's right to indemnification.

8. The acceptance of any workmanship by the District shall not preclude the subsequent rejection thereof if such workmanship shall be found to be defective after project completion. Any such workmanship found defective before final acceptance of the work or within one year after completion shall be remedied or replaced, as the case may be, by and at the expense of the Contractor. In the event of failure by the Contractor to do so, the District or its assigns may remedy such defective workmanship. In such event, the Contractor shall pay to the District the cost and expense thereof. The Contractor shall not be entitled to any payment hereunder so long as any defective workmanship, in respect of the project, of which the Contractor shall have had notice, shall not have been remedied or replaced, as the case may be.

9. Any and all subcontractors to be employed on the project are to be listed on each proposal. The Contractor understands that any subcontractor not listed in the proposal will be denied access to the project unless such change or substitution has been approved in advance by the District.

d. Prior to commencement of any work hereunder, the Contractor shall provide the District with evidence of Worker’s Compensation Insurance and with a certificate of insurance showing the District named as additional named insured.

11. The project from the commencement of work to completion, or to such earlier date or dates when the District may take possession and control in whole or in part as hereinafter provided, shall be under the charge and control of the Contractor. During such period of control by the Contractor, all risks in connection with the construction of the project and the materials to be used therein shall be borne by the Contractor. The Contractor shall make good and fully repair all injuries and damages to the project or any portion thereof under the control of the Contractor, by reason of any act of God, or other casualty or cause, whether or not the same shall have occurred by reason of the Contractor’s negligence. It is understood that the Contractor is engaged in an independent business and that it will perform the work under this contract as an independent contractor and not as the agent, employee, or servant of the District; that it has and hereby retains the right to exercise control and supervision of the work and full control over the employment, direction, compensation, and discharge of all persons assisting in the work; that it will be solely responsible for the payment of its employees and for the payment of all federal, state, county, and municipal taxes and contributions pertaining thereto, including but not limited to payments for Workmen’s compensation benefits; and that it will be responsible for its own acts and those of its subordinates, employees, and subcontractors during the term of this contract.

12. Upon written request of the District, the Contractor will deliver to the District full possession and control of any portion of the project, provided the Contractor shall have been paid at least 90 percent of the cost of construction of such portion. Upon such delivery of possession and control to the District, the risks and obligations of the Contractor as set forth in Paragraph 10 above, with Last Revision: 12/16/2014 9:17 AM
respect to such portion so delivered to the District, shall be terminated; provided, however, that nothing herein contained shall relieve the Contractor of any liability with respect to defective workmanship as set forth in Paragraph 6 above.

13. If default shall be made by the Contractor or by any subcontractor in the performance of any of the terms of this proposal, the District without any manner limiting its legal and equitable remedies in the circumstances, may serve upon the Contractor and the surety, if any, a written notice requiring the Contractor to cause such default to be corrected forthwith. Unless within twenty days after the service of such notice upon the Contractor and the surety, if any, such default shall be corrected or arrangements for the correction thereof satisfactory to the District shall be made, the District may take over the construction of the project and prosecute the same to completion by contract or otherwise for the account and at the expense of the Contractor; and the Contractor shall be liable to the District for any cost or expense in excess of the contract price occasioned thereby. In such event, the District may take possession of and utilize in completing the construction of the project any materials, tools, supplies, equipment, appliance, and plant belonging to the Contractor or any of its subcontractors which may be situated at the site of the project. The District, in such contingency, may exercise any rights, claims, or demands which the Contractor may have against third persons in connection with this proposal; and for such purpose the Contractor does hereby assign, transfer, and set over unto the District all such rights, claims, and demands.

No payment shall be due while the Contractor is in default in respect of any of the provision of this contract. The District may withhold from the Contractor the amount of any claim by a third party against either the Contractor or the District, based upon an alleged failure of the Contractor to perform work hereunder in accordance with the provisions of this contract.

14. In the event that any of the provisions of this contract or any federal, state, or local laws or regulations are violated by the Contractor or by any of the Contractor’s subcontractors, the District may serve written notice of intention to terminate such contract upon the Contractor, which notice shall specify the reasons therefore. Unless within ten days after serving such notice upon the Contractor such violation shall cease and an arrangement for the correction thereof satisfactory to the District be made, the contract shall upon the expiration of the said ten days cease and terminate. In the event of any such termination, the District may purchase the materials necessary for complete performance of this contract for the project and at the expense of the Contractor, and the Contractor shall be liable to the District for any excess cost occasioned thereby.

15. The Contractor shall promptly pay all claims for labor done and materials furnished for the performance of said work, and shall keep all said work and any property of the District free from all liens arising from labor done or materials furnished thereto. The District Auditor may require the Contractor to furnish receipted material bills and payroll records for his/her inspection.

16. The Contractor shall submit to the District all advertising, sales promotion, press releases, and other publicity matters relating to the services performed by the Contractor wherein the District’s name or marks are mentioned or language from which the connection of said names or marks may be inferred or implied. The Contractor further agrees not to publish or use such advertising, sales promotion, press releases, and publicity matters without the District’s written approval.

17. If required by private, county, state, or other road authorities, the successful bidder will furnish to such authorities a bond, or meet other guaranty requirements, to assure prompt repair of all damages to highways, roads, and their associated rights-of-way caused by the Contractor during

Last Revision: 12/16/2014 9:17 AM
construction of the project. This requirement is in addition to and independent of the Contractor's performance bond required under this contract. The acceptance of the bid from any Contractor is not to be construed as approval of the Contractor's equipment, or proposed construction methods by or on behalf of private, county, state, or other road authorities. Contractors may obtain information concerning the requirements of highway and road authorities by communicating with the Clallam County Road Department and the Washington State Department of Transportation.

18. The Contractor shall at all times take all reasonable precautions for the safety of employees and the public in the work on the project and shall comply with all applicable provisions of federal, state, and municipal safety laws, and building and construction codes. The Contractor shall submit to the District monthly reports, in duplicate, of all accidents giving such data as may be prescribed by the District.

19. This contract and the performance thereof shall be governed, interpreted, construed, and regulated according to the laws of the State of Washington. Venue for any legal action arising from this contract shall be in the Superior Court of Clallam County. If any claim at law or otherwise is made by either party to this contract, the prevailing party shall be entitled to its costs and reasonable attorney fees incurred thereby.

20. The District shall have the right to audit all contractor records pertaining to the work performed at any time during a project and within one year after the completion of the work. At the District’s discretion, prior to awarding a project, contractors may be removed from the list of approved bidders if exception is taken to the District’s auditing requirements. Should a contractor refuse to allow the District to audit their records during the course of a project, the District may terminate the contract or agreement and deny the opportunity to bid on future District projects.

21. This contract represents the entire agreement between the parties hereto and a final expression of their agreement, and supersedes all prior agreements, representations, understandings or negotiations with respect to the matters covered by this contract. If any term, provision, condition, or covenant of this contract is held to be invalid, void, or unenforceable, the rest of the contract shall remain in full force and effect and shall in no way be affected, impaired, or invalidated. This contract shall be in effect for three years, at which time an updated application and financial data will be required. It is the Contractors responsibility to notify the District of any significant changes that occur during years two and three.

By entering into this contract the contractor verifies that they are not in a suspended status or on any State or Federal debarment lists.
