Manufactured Home District Connect Form

This form must be signed, completed and submitted with requested documents prior to electric service connection.

Note: At a minimum, manufactured homes must meet the 1994 HUD Code efficiency standards to qualify for PUD electrical service, or be assessed an Energy Resources Surcharge at the time of application for service. This form determines the applicability of the Surcharge. For more information, please see the reverse side of this form and the PUD's Schedule of Deposits and Charges. Please complete, sign and date this form, and attach the required documents as indicated below.

Manufactured home is:

- New: complete this form and attach copies of the Purchase Agreement and Registration with year of manufacture
- Used: attach copies of transit &/or registration papers, and:
 - For homes manufactured in 1994 or later, please complete this side of the form.
 - For homes manufactured in 1993 or earlier, please complete both sides of form.
